

Accelerate digital transformation with

Cloud Consulting Services

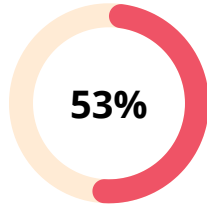

Simform provides tailored solutions to make migration to the cloud a seamless experience for your teams. From application development to deployment, and modernization to maintenance, we help you plan every step to **realize the maximum value of the cloud.**

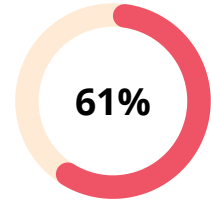

Why companies are moving to cloud

67% of the organizations operate cloud-based infrastructure environments

Organizations that invest in big data, cloud, mobility, and security enjoy up to 53% faster revenue growth than their competitors.

61% of the organizations consider cloud spending optimization as their top initiative.

- ✓ **Maximum scalability**
- ✓ **Cost-effective**
- ✓ **Utilization of DevOps, Microservices, and containers**
- ✓ **Advanced disaster recovery**
- ✓ **Automatic software updates**
- ✓ **Enhanced data and analytics capabilities**

IT leaders need to formulate a cohesive cloud strategy that is expansive and forward-looking to fully reap the business value of cloud.

John McArthur
Senior Director Analyst,
Gartner

If someone asks me what cloud computing is, I try not to get bogged down with definitions. I tell them that, simply put, cloud computing is a better way to run your business.

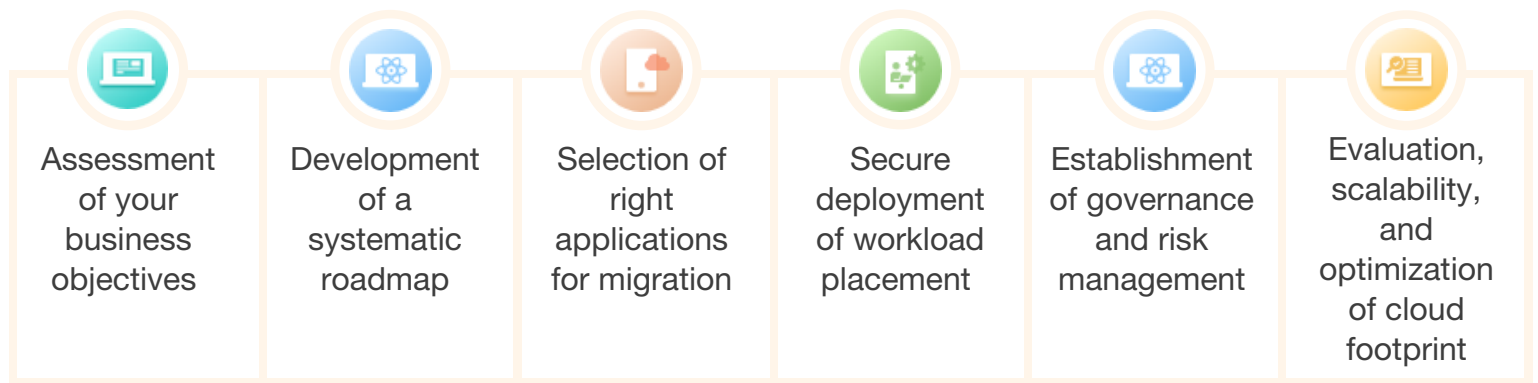

Marc Benioff
Founder, CEO & Chairman,
Salesforce

Move to the cloud with Simform

Simform's cloud consulting services include an in-depth review of your business so that you can make informed technology-related decisions and help you create a blueprint to accelerate your journey to the cloud.

Cloud Migration

We help you create an all-inclusive action plan to securely transition to cloud infrastructure and modify your development model to accommodate your business goals.

Cloud Optimization

Our experts offer personalized recommendations to eliminate resource wastage and help you select, provision, and optimize your spending on cloud resources.

Cloud Infrastructure Management

We assist you in leveraging the right tools and processes that enable you to allocate key resources and manage day-to-day cloud operations without any roadblocks.

Application Modernization Services Over Cloud

Our experts collaborate with you to plan a transition from legacy applications with the use of modern frameworks, languages, and cloud platforms to extend the lifespan of your applications.

Simform's 4-step approach to application modernization

Prepare a robust
containerization
strategy

Build an API
framework

Divide legacy
app with
microservices

Refactor with
cloud-native
practices

You are in good hands

We believe that adopting cloud computing is the foundation for digital transformation and our experts make it a point to maximize cloud capabilities for our clients.
